The horse became frightened at a package in the wagon is was drawing, and in kicking at it, got one of his legs over one of the shifts. He ran in that position down Ninsteenth street and up Market to near Sizteenth, where the wagon collided with one of the American Express Company's teams, upsetting the Horkheimer wagon, and breaking a shaft. only live meat inspectors the city has.

A reporter called on Messrs. Goodhue and Thomas, the proprietors of the Tenth street yards, yesterday afternoon, to learn a little something of their methods and capacity for handling stock. They went into the commission business in Septem ber, 1886, dealing in live stock for butchers use exclusively. Since that time, their business has steadily increased, till now its volume is double what it was at the start. They have room for one hundred and sixty cattle, three hundred sheep, four hundred hogs and fifty calves in their yard. They draw their supply of stock from Ohfo, Wetzel, Tyler, Brooke, Marshall, Pleasants and Wood counties in this States and from Jefferson, Belmont, Washington and Monroe counties, Ohio, These counties furnish all the cattle needed, except sometimes in the Spring season, when it is found necessary to draw from the west. The reason for this shortage in the Spring, is the fact that not many cattle are fed hereabouts during the winter season, and fat cattle are scarce during March, April and May. These gentlemen sell allogether on commission, and charge \$1 a head on cattle, and 2 per cent on other stock sold in their yards. They sell their stock to the butchers of Wheeling, Bridgeport, Bellaire and Martin's Ferry, having no demand outside of that territory. During the past week these gentlemen have sold 120 head of cattle, averaging 800 pounds each, at an average price of three cents a pound. They also handled 21 hogs and as many more sheep. Nearly all the stock handled in the commission yards is sold by weight, that method being much more satisfactory to the owners, than the "lump it" plan used by drovers and butchers in the country.
